

product in the category of Front Windcreens; a product, which can be claimed to be the best in the category. It deflects the heat and glare incident on the glass during the day. It also reduces the intensity of light beam from the opposite vehicle during the night, thereby making your drive a convenient and comfortable experience at all times. All these factors make Global Window

Film an apt prescription for your automobile, and every reason for you to go Global.

Global Window Films are also widely used in building & safety applications. It has range of films catering to different requirements and segments. ■

WE'VE DONE OUR PART... NOW IT'S YOUR TURN

We at Global believe in making our products eco-friendly.

Global Window Films are energy efficient
as they reject high heat incident on the glass.
This results in less power consumption.

JOIN GREEN, JOIN GLOBAL!

DISTRIBUTOR'S TESTIMONIAL

Tint Tech LLC is another local business that has started to expand. **Dustin and Amber Pulley** have opened at a new location in St. Louis, MO. They offer Automotive, Commercial and Residential Window Tinting and have 11 years of experience under their belts. Together they give their customers a unique line of films to choose from at a great price. What makes them so great is their teamwork. Amber sells the highest quality film and Dustin installs the films.

"After using many different films over the years I am now strictly loyal to Global. Their lifetime warranty is what seals the deal with the customers. The customers demand high quality and ever since we started using Global we have no problem satisfying that demand."

HOWARD PARITSKY'S TESTIMONIAL

In almost 30 years in this industry, I have made many critical decisions. Of all them, the best one has proven to be my decision to partner with Global Window Films.

If you are around this industry long enough, you learn that window film installers value & require consistency. Roll after roll, month after month & year after year; when it comes to providing a reliable product, Global really delivers. If you are an installer that cares about turning out a quality product every time, then Global belongs at the top of your list. By producing films from the molecular level all the way to the finished product, Global is able to achieve the unparalleled, consistent quality that is their signature trademark. It's no wonder why the majority of our new clients were referred to us by other satisfied installers. Global has earned its place in the market by virtue of its reliable quality and will remain an industry leader well into the foreseeable future.

DISTRIBUTOR'S TESTIMONIAL

Sunbusters Window Tinting started business about ten years ago, with my son. We try to attain perfection in providing service to our clientele. We make sure that the materials we use are reliable and long lasting, since customer satisfaction is key to the business.

At first, I was hesitant to use Global's products. Then one day, at the persistence of Mr. Umesh Jagtiani I decided to at least try them. I installed it on our service car and I didn't expect the film to be so easy to handle. The color was really nice and it looked really good! Then, I decided to use it on one of my loyal customers car, with tints that had gone flaky and had turned violet. It's been 5 years since & the tints have not changed a bit! Since then, I have served over 1000 satisfied customers per year and still counting. Now, Sunbusters Window Tinting is the no.1 tinting service in Lanham Maryland. It has been providing great window tinting services for all types of vehicles, luxury automobiles, domestic as well as imported ones.
